Personal Growth Tracker — User Guide

Welcome to **Growth Tracker** 🌱 — a private, judgment-free space to check in with yourself every day. This guide walks you through everything you can do in the app, in plain language. No technical knowledge needed!

What is Growth Tracker?

Growth Tracker is a personal journal and wellness tool. Each day you take a few minutes to answer some gentle questions about how you're feeling, what you're grateful for, and what you learned. Over time the app quietly builds a picture of your emotional and personal growth that you can look back on whenever you like.

Your data is 100% private. Everything you write stays on your own device. No account is required, and nothing is shared with anyone unless you choose to back it up yourself.

Getting Around

At the top of every page you'll find the **navigation bar**. It has five links:

Link	Where it takes you
🏠 **Dashboard**	Your home screen and overview
✍️ **Check In**	Today's daily journal entry
📋 **This Week**	A reflection on your current week
🗓️ **History**	Every past entry you've ever made
⚙️ **Settings**	Reminders, backups, and other preferences

On a phone or small screen the links collapse into a menu button — just tap it to open them.

Dashboard — Your Home Screen

The dashboard gives you a quick overview of how things are going.

What you'll see

- **A welcome message** — A new encouraging quote appears each time you visit. Things like *"You're doing enough. Growth doesn't have to be loud."*
- **Today's date** and a button to start or update today's check-in.
- **Today at a Glance** — If you've already checked in today, a summary card shows your mood, energy score, confidence score, and how many things you felt grateful for.
- **This Week** — A snapshot of how many days you've logged this week, your average energy and confidence, and totals for gratitude moments, boundaries, and learning moments.
- **Energy & Confidence Chart** — A simple line graph showing how your energy and confidence have moved over the past 7 days.
- **Recent Check-Ins** — A quick list of your most recent entries.

Two helpful features on the dashboard

- **Positive Vibes** — A banner at the bottom of the page with a button to open a pop-up full of uplifting quotes, breathing exercises, and small acts of self-care. Tap it any time you need a lift.
- **Send a Vibe** — Another banner for when you want to brighten someone else's day. See Send a Vibe below.

Daily Check-In — Your Journal Entry

This is the heart of the app. Tap **Check In** in the navigation to open your journal for today.

If you've already checked in today, the form opens in edit mode so you can update anything you've written.

Work through each section at your own pace — there's no right or wrong answer:

1. Mood

Choose the one that best fits how you're feeling right now:

Option	
Great ✨	
Good 😊	
Okay 🌥️	
Low 🌧️	
Rest Day 🛌	

> **Tip:** If you choose **Low** or **Rest Day**, the Positive Vibes pop-up will open automatically with something comforting for you.

2. Energy Level

Pick the card that matches your energy today, from Empty 🪫 through to High 🚀. Each card has a short description to help you choose.

3. Confidence Level

Pick the card that matches how confident you felt today, from Shaky 🌫️ through to Solid ✨.

4. Gratitude Moments

Type something you appreciated today — big or small — and press **Enter** or click **Add**. It appears as a little tag. You can add up to **5 things**. Examples:

- *a warm cup of tea*
- *a kind message from a friend*

Click the ✕ on any tag to remove it.

5. Boundaries Set

Did you say no to something, protect your time, or speak up for yourself? Add those moments here (up to 5). Examples:

- *said no to an extra meeting*
- *logged off on time*

6. Learning Moments

What did you discover, realise, or understand today? (Up to 5.) Examples:

- *I need more sleep to focus well*
- *asking for help isn't a weakness*

7. Free Notes

An open text area for anything else on your mind. Write as much or as little as you like (up to 2,000 characters). This space is entirely yours.

Saving your entry

When you're done, tap **Save**. A green confirmation message appears and the app takes you back to your dashboard.

This Week — Weekly Reflection

Tap **This Week** in the navigation to see a summary of the current Monday–Sunday week.

- **Day dots** — Seven circles, one for each day. Days you've logged show a mood emoji inside; unlocked days are faint. Today's dot is highlighted.
- **Your Numbers** — Average energy, average confidence, and totals for gratitude moments, boundaries set, and learning moments.
- **All your gratitude moments this week** — gathered together in one list so you can read them all at once.
- **All your boundaries this week** — same idea.
- **All your learning moments this week** — same idea.
- **An encouraging message** at the bottom — something like *"You showed up this week — that's everything."*

History — Your Full Journey

Tap **History** in the navigation to see every check-in you've ever made, newest first.

Each entry appears as a **summary row** showing the date, mood emoji, energy and confidence scores, and small counts for gratitude/boundaries/learning.

To read the full details, tap anywhere on a row to expand it. You'll see all your gratitude items, boundaries, learning moments, and any free notes you wrote that day.

To delete an entry, expand it and tap the **Delete** button. You'll be asked to confirm before anything is removed.

Positive Vibes — A Little Lift When You Need It

The Positive Vibes pop-up can be opened from:

- The dashboard (the "Need a little lift today?" strip at the bottom)
- The Check In page (if you choose a low mood or low energy)
- Anytime manually by clicking the button on the dashboard

Inside you'll find a randomly chosen supportive card from one of five categories:

Category	What's inside
💬 A gentle reminder	Short quotes, like *"You have survived 100% of your hard days so far."*
🌸 Say this to yourself	Affirmations to read aloud or just sit with
🌬️ Try this	Guided breathing exercises with step-by-step instructions
✨ One small thing you could do	Tiny self-care nudges like *"Drink a full glass of water right now. Slowly."*
🤍 People who love you	Warm reminders that you are thought of and cared for

Tap **"Give me another ✨"** to see a different card. Cards won't repeat until they've all been shown at least once. When you're ready to close the pop-up, tap **"I'm okay now, thank you 🌱"**.

Send a Vibe — Spread Some Kindness

Want to brighten someone else's day? Tap the **"Spread some good vibes 💗"** strip on the dashboard to open the Send a Vibe pop-up.

Step 1 — Choose your message:

- Optionally enter the recipient's name and email address, and your own name.
- Choose one of 16 praise types, such as:
  - *"I appreciate you"*
  - *"I'm proud of you"*
  - *"You inspire me"*
  - *"Great collaboration"*
  - *"Lucky to have you as family"*
  - *"So glad you are my friend"*

Step 2 — Preview and edit:

- A warm, pre-written message is created automatically, personalised with the name you entered.
- You can edit the message however you like before sending.
- Tap **"Open in email app 📨"** to open the message in your phone or computer's email app, with the address, subject line, and message already filled in — ready to send with one tap.

After sending, a confirmation screen lets you know your kind message is on its way.

Settings

Tap **Settings** in the navigation to manage your preferences and data.

Daily Reminders

Turn on browser notifications so the app reminds you to check in each day.

1. Toggle **Enable Daily Reminders** on.
2. Pick the **time** you'd like to be reminded (e.g. 8:00 PM).
3. Tick the **days of the week** you want reminders on.
4. Tap **Save Settings**.

Your browser may ask permission to send notifications the first time — tap **Allow**. The reminder message will be: *"How are you feeling today? Take a moment to check in with yourself."*

> **Note:** If your browser has blocked notifications, a message in Settings will tell you how to allow them again in your browser's settings.

Google Drive Backup (optional)

If you'd like to back up your entries to your own Google Drive, you can connect it here. This requires a Google Cloud Client ID (a one-time setup step described in the app). Once connected:

- **Upload to Google Drive** — saves all your data to your Drive as a file.
- **Restore from Google Drive** — loads your data back from Drive onto this device.

Local Backup

No Google account? No problem. You can back up and restore your data directly as a file on your device:

- **Download JSON Backup** — saves a backup file (named `growth-tracker-YYYY-MM-DD.json`) to your downloads folder.
- **Import from File** — lets you select a previously saved backup file to restore your data.

Keep your backup file somewhere safe in case you switch devices or clear your browser.

Delete All Data

At the bottom of Settings there is a **Delete All Data** button. Tapping it will permanently remove every entry and setting from this device. You will be asked to confirm before anything is deleted.

> ⚠️ This cannot be undone. Make a local backup first if you want to keep your data.

A Few Things Worth Knowing

- **Missing a day is completely fine.** The app will never shame you for it. When you haven't checked in, it gently says *"You haven't checked in today — and that's completely okay. Whenever you're ready, it's here for you."*
- **Your data never leaves your device** unless you actively use the Google Drive or local backup features.
- **No account, no password, no sign-up.** Just open the app and go.
- **It works offline.** You don't need an internet connection to write or read your entries.

Growth doesn't have to be loud. Every small check-in counts. 🌱
